

Documenso Self-Hosted — sign.basicconsulting.no

Documenso Self-Hosted — sign.basicconsulting.no

Service Details

- **Service:** Documenso v2.x (open-source document signing)
- **URL:** <https://sign.basicconsulting.no>
- **DNS:** A record → 4.223.110.181 (Azure VM, proxied via Cloudflare)
- **Hosting:** Azure VM (swedencentral)

Admin Credentials

- **Email:** alem@alai.no
- **Password:** (stored in Vault: "Documenso - sign.basicconsulting.no")
- **Vault item password:** Cemerika_!950

API Integration

- **API Token:** api_xn907c9xczrteoba (created 2026-04-19 for Bilko Sign integration)
- **API Base URL:** <https://sign.basicconsulting.no/api/v1>

Test cURL

```
curl -H "Authorization: api_xn907c9xczrteoba" \  
https://sign.basicconsulting.no/api/v1/documents
```

```
# Expected response:
```

```
{"documents":[],"totalPages":0}
```

Bilko Sign Integration

Documenso is used as the signing backend for Bilko (accounting SaaS).

- **Spec:** ~/ALAI/products/Bilko/docs/product/BILKO-SIGN-SPEC.md
- **Integration team:** Skybound (mobile + frontend specialists)

GCP Secret Manager

- **Secret name:** bilko-documenso-api-key
- **Value:** api_xn907c9xczrteoba
- **Bound to:** bilko-api Cloud Run service (revision 00045-flz)
- **Environment variable:** DOCUMENSO_API_KEY

bilko-api Environment Variables

```
DOCUMENSO_API_URL=https://sign.basicconsulting.no
```

```
DOCUMENSO_API_KEY=(from GCP Secret Manager)
```

Incident History

2026-04-18: 404 Error

Symptom: sign.basicconsulting.no returned 404 Not Found

Root cause: Cloudflare Tunnel ingress had route to localhost:3003 but cloudflared could not reach backend

Fix: Changed DNS from tunnel CNAME to direct A record → 4.223.110.181 (proxied)

Result: Documenso Sign In page now live

Maintenance

Backup API Tokens

- Store all API tokens in Vault immediately after creation
- Documenso does NOT allow viewing tokens after creation (one-time display)

Version Updates

```
# Check current version
curl -s https://sign.basicconsulting.no/api/health | jq .version

# Update (on Azure VM)
ssh -i ~/.ssh/azure_alai alai-admin@4.223.110.181
cd /path/to/documenso
docker-compose pull
docker-compose up -d
```

Future Migration

Target: **sign.alai.no** (part of ALAI domain migration)

- See [ALAI Domain Migration runbook](#)
- Requires: alai.no NS change on one.com (pending as of 2026-04-19)
