Backend

Document	Description
API Reference	All 26 API endpoints — method, path, request/response, auth, rate limits
Database Schema	All 19 tables (12 core + 7 compliance) — columns, types, constraints, indexes
Authentication	JWT auth flow — register, login, refresh, logout, middleware
Services	External integrations — Sumsb (KYC) <code>[PRODUCTION]</code> , Stripe (Cards) <code>[MOCK]</code> , Swan <code>[DEPRECATED]</code>
Middleware	Auth, validation, rate limiting, CSRF, error handling
Feature Flags	8 feature flags, 16 tracked features, server/client APIs

Frontend

Document	Description
Component Inventory	All components — custom, icons, shadcn/ui primitives
Pages	All 20 routes — auth, components, data fetching, compliance pages
Design System	Colors, typography (Fraunces/DM Sans/Geist Mono), spacing, patterns
State Management	useAuth hook, feature flags, data fetching patterns

Document	Description
Landing Pages	Marketing site — 9 sections, 12 sub-pages, waitlist API

Mobile

Document	Description
Mobile App	Expo Router architecture, 8 screens, API client, theme

Infrastructure

Document	Description
Deployment	Docker, Fly.io, 3 deployment configs (MVP/Production/Staging)
CI/CD	GitHub Actions pipeline — lint, test, build, e2e, docker (5 jobs)
Monitoring	Health checks, container monitoring, gaps identified
Environment	Tech stack, npm scripts, Next.js config, env modes

Security

Document	Description
Security Architecture	JWT, cookies, bcrypt, CSRF, rate limiting, input validation
Compliance	PSD2, AML, GDPR, DORA readiness — 8/100 overall, remediation plan

Testing

Document	Description
Testing Guide	Vitest + Playwright, running tests, mocking, patterns
Test Inventory	All 14 test files — unit, integration, e2e, regression, performance

Quality Assurance

Document	Description
Validation Report	Cross-reference audit of all docs against source code

Revision #12
