

Skill Examples (3)

```
## §7 Per-Skill Examples
```

```
### 7.1 task-postflight
```

```
**Current behavior:** Evidence written to `/tmp/postflight-/` (when it exists at all). Outcome i
```

```
**After Phase 2:**
```

```
...
```

```
~/projects/alai/task-postflight/2026-05-05-99292-a1b2c3/
```

```
  brief.md          # AC list copied from mc.js show at invocation start
  outcome.md        # Final pass/fail report with per-AC verdicts
  evidence/         # Raw command outputs, curl responses, screenshots
    01-curl-health.txt
    02-grep-section.txt
  .provenance.json  # {mc_id, agent, model, timestamp, skill, client, run_id}
  ...
```

```
**Replaces:** `/tmp/postflight-/` and terminal-only reporting.
```

```
**Brief source:** `node ~/system/tools/mc.js show` description field, written verbatim at run s
```

```
### 7.2 codecraft build / design task
```

```
**Current behavior:** Evidence written to `/tmp/-evidence/` (codecraft convention). Brief (the M
```

```
**After Phase 2:**
```

```
...
```

```
~/projects//mc-/evidence/
```

```
  brief.md          # BUILD-BLUEPRINT section relevant to this MC
  diff.patch        # git diff of changes made (if applicable)
  outcome.md        # Sub-agent final report (the CODECRAFT SUB-AGENT REPORT block)
  evidence/         #
    01-build-output.txt
    02-test-results.txt
  .provenance.json
  ...
```

```
**Replaces:** `/tmp/-evidence/` and scattered diff files.
```

```
**Brief source:** MC description + BUILD-BLUEPRINT section passed in the dispatch prompt, writte
```

```
### 7.3 proveo validation
```

```
**Current behavior:** Validation reports go to terminal. Evidence written to `/tmp/proveo--*.txt
```

```
**After Phase 2:**
```

```
...
~/projects//mc-/evidence/
brief.md          # AC list + source-of-truth directory stated at invocation
outcome.md       # Human-readable pass/fail report with per-AC verdicts
result.json      # Machine-readable: {mc_id, pass_count, fail_count, acs: [...]}
evidence/
  01-ac1-curl.txt
  02-ac2-grep.txt
  03-ac3-wc.txt
.provenance.json
...

**Replaces:** `/tmp/proveo--*.txt` flat files and terminal-only reporting.

**Brief source:** AC list from `mc.js show` + any source-of-truth paths stated in the MC descri
