

# ALAI Contacts Inventory

# ALAI Contacts Inventory

**Authoritative source:** Paperless-ngx Correspondents na `archive.alai.no/api/correspondents/`

**Last rebuild:** 2026-04-28 (iz `~/system/databases/email-inbox.db`, 2299 emails) **MC reference:**

[#9546](#)

“ Sve poslovne kontakte ALAI Holding AS i partnerskih kompanija. Auto-rebuild iz email DB-a + lokalnih dokumenata. Single source of truth.

## Kako pretraživati kontakte

### Web UI

<https://archive.alai.no> → Correspondents tab → search ili browse.

### API

```
source ~/.config/alai/paperless-token.env
curl -s --interface 192.168.68.65 \
  -H "Authorization: Token $PAPERLESS_TOKEN" \
  "https://archive.alai.no/api/correspondents/?name__icontains=sintef" | jq
```

## Stat — koliko ih je

```
curl ... "https://archive.alai.no/api/correspondents/?page_size=1" | jq '.count'
```

# Trenutni inventory — 56 correspondents (2026-04-28)

## Banking / fintech partneri & klijenti

ID	Name	Source
19	PBZ Zagreb	seeded — Intesa pivot HR
20	Intesa Sanpaolo	seeded
29	Vidar Aksland (SpareBank1 Sør-Norge)	email
30	Tomislav Premuž (PBZ Zagreb)	email
31	Vegard Aven (ZTLPay)	email
32	Andreas Bjerke (ZTLPay)	email
33	Aprila Bank ASA	email
34	Folio	email — Bilko reference

## Regulatori / vlast

ID	Name	Source
16	Finanstilsynet	seeded
17	Skatteetaten	seeded
18	Brønnøysundregistrene	seeded
—	Innovasjon Norge	seeded

## Akademski / research partneri

ID	Name	Source
15	SINTEF	seeded
26	Brian Elvesæter	email — SINTEF
27	Signe Riemer-Sørensen	email — SINTEF lead
28	Harald Rønn	email — Simula
35	Håkon Kløve-Graue Lavik	email — Finance Innovation Bergen

## HR / recruiters / consultancies

ID	Name
36	Kjell Ljøstad (Hive Consulting)
37	Audun (Kons AS)
38	Amanda Heie Veiby (Emagine)
39	Ove Olsen (Knowit)
40	Amila Lagumdžija (Authority Partners)
41	Elakkiya Sivakumar (Storebrand)
42	Henrik Digernes (NFF)
43	Thomas Dahlsrud (Sykling)

## Network / kolege / familija

ID	Name
44	Hamdija Salkić (LinkedIn)
45	Asmir Merdžanović
46	Anel Pasić (WizardNUF)
47	Adnan Cesko
48	Stefan (Smitrovic)
49	Emma Hu (Transtek)
50	MARFILD HOLD

## Vendors sa account managerom

ID	Name
21	Anthropic
22	Cloudflare
23	Tryg
24	Fiken AS
25	Entur AS
51	Knut at Sanity
52	Dan at Vercel

ID	Name
53	Sanity.io
54	Kravia
55	Vercel Security
56	Tryg Forsikring

## Kako auto-update-ovati

Svaka Claude sesija (per ZAKON ARCHIVE FIRST):

```
# ~/system/scripts/contacts-rebuild.py (TODO – kreirat će ga FlowForge u sljedećoj iteraciji)
import sqlite3, requests
db = sqlite3.connect("~/system/databases/email-inbox.db")
new_senders = db.execute("""
    SELECT from_addr, from_name, COUNT(*) c
    FROM emails
    WHERE classification != 'SPAM' AND from_name != ''
        AND from_addr NOT LIKE '%no-reply%'
        AND from_addr NOT LIKE '%newsletter%'
    GROUP BY from_addr HAVING c >= 2
""")
# Compare with existing Paperless correspondents
# Auto-create new ones with name + meta in notes
```

Trigger:

- Manualno: `python3 ~/system/scripts/contacts-rebuild.py`
- Auto: cron weekly (TODO)

## Multi-tenant kontekst (Bilko HR/BiH/Srbija)

archive.alai.no postaje SaaS feature kroz Bilko klijente. Trenutni stanje = single instance, single tenant. Future:

- **Per-client root storage path** — npr. `/Bilko-HR/<tenant>/contacts/`, `/Bilko-BiH/<tenant>/contacts/`
- **Per-tenant API tokens** — scoped na svoj prefix
- **CF Access policies** — tenant-specific email domain matching
- **Billing integration** — Bilko subscription model

Dok to nije implementirano, sve ide pod `/ALAI/contacts/` storage path (id=10).

---

## Outstanding TODO

- **Phone numbers** — Paperless Correspondent ne podržava native, mora kao Custom Field (`/api/custom_fields/` setup)
  - **Postal addresses** — isto, Custom Field
  - **LinkedIn / role / company** — Custom Field
  - **Family vs business segregation** — tag `personal` vs default
  - **Email DB → Paperless auto-sync cron** (MC #9996 covers email export, this would be lighter contacts-only sync)
  - **Multi-tenant** — kad Bilko commercial launch, per-client root paths
-
