

LightRAG Backup — retarget na lr106747-* volumene + fail-loud guard (#106946)

MC #106946 — LightRAG backup retarget

Status: ŽIVO od 2026-08-08; prvi produkcijski run nedjelja 2026-08-09 02:00Z PROŠAO.

Šta je promijenjeno: lightrag-backup.sh retargetovan sa nepostojećih volumena na stvarnih 7 lr106747-* volumena + pre-flight fail-loud guard (odbija run ako bilo koji ciljni volumen fali) — builder devops-dev, evidence: /Users/makinja/system/evidence/106946/lightrag-backup-retarget-20260808.md

Nezavisna verifikacija #106946 — John, 2026-08-12 23:15
