

ALAI Project Blueprint v1.0

ALAI Project Blueprint — v1.0

Status: CANONICAL — All ALAI Holding projects and companies align to this document.

Owner: John (AI Director) | Architect: Petter Graff | CEO: Alem Basic

Last Updated: 2026-04-29 (MC #10043 System Reform)

Sources: Research doc system-reform-research-20260429T032241Z.md

Review cadence: Quarterly (next: 2026-07-01)

“Build systems that build systems.” — ALAI mission statement

Full canonical text at: `/Users/makinja/system/specs/ALAI-PROJECT-BLUEPRINT.md` (1236 lines)

This is the canonical engineering and organizational standard for all ALAI entities. It draws from Toyota lean manufacturing, Google SRE, Spotify Engineering Culture, Netflix Full Cycle Developers, 12-Factor App, ADR pattern, Diátaxis docs, and Atomic Design.

Key Sections

- 1. Executive Summary & Reform Philosophy
- 2. Repo & Filesystem Topology
- 3. GitHub Org & Repo Conventions
- 4. Lifecycle Documentation (Diátaxis-Aligned)
- 5. Brand & Design System
- 6. Secrets & Credential Hygiene
- 7. Observability Stack
- 8. Cost Discipline
- 9. AI Agent Integration
- 10. Migration Philosophy
- 11. Templates Appendix (11 templates)
- 12. Glossary
