

# Page: Send

## Page Spec: Send Money

### Route

`/send`

## Architecture Status

Core

## Implementation Status

**SPEC DOCUMENTS STEP 1 ONLY.** The actual implementation has a 4-step flow:

1. **Select Recipient** (documented below) — search recipients, add new
2. **Enter Amount** (NOT DOCUMENTED) — amount input + exchange rate display
3. **Confirm** (NOT DOCUMENTED) — review transfer details, fee breakdown
4. **Success** (NOT DOCUMENTED) — confirmation screen + receipt

This spec covers ONLY step 1. Steps 2-4 need separate specs or this spec needs expansion.

## Figma Reference

`send.png`

## Visual Description from Figma

The Send Money page is the first step in the money transfer flow:

- **Top bar:** Left side has a back arrow (thin left arrow) icon in muted gray. Center has "Send penger" heading in bold sans-serif font. Below the heading, centered, is "1/4" step indicator in muted text.
- **Background:** Light gray (#EEEEEE).
- **Search input:** Large white rounded input field with:
  - Magnifying glass icon on the left (gray)
  - Placeholder text "Søk mottakere..." in gray
  - Full width with rounded corners
- **Empty state message:** Centered text below search input:
  - "Ingen mottakere funnet" in muted gray text (#6B7280)
  - Indicates no recipients have been added yet
- **Add recipient button:** White rounded button at bottom of content area:
  - "+" icon on left in dark color
  - "Ny mottaker" text in dark color
  - Full width, white rounded, no visible border (contrast against gray bg)
  - Positioned well above bottom navigation
- **Bottom navigation:** Visible but all tabs inactive (no green highlight).

The page has a clean, minimal design with large touch targets and plenty of whitespace.

## Page Layout

```

App page WITH bottom nav
├─ Top Bar
|   ├─ Left: Back arrow (chevron)
|   └─ Center: "Send penger" heading
|       └─ Right: "1/4" step indicator
├─ Content Area (light gray bg)
|   ├─ Search Input
|   |   └─ Search icon (left)
|   |       └─ "Søk mottakere..." placeholder
|   └─ Empty State
|       └─ "Ingen mottakere funnet" message
├─ Add Recipient Button
|   └─ "+" icon
|       └─ "Ny mottaker" label
└─ Bottom Nav (all tabs inactive)
  
```

## Components

# Top Bar

```
<div className="flex items-center justify-between px-6 pt-6 pb-4">
  <button onClick={() => router.back()} className="rounded-lg p-2 hover:bg-white/80">
    <ChevronLeft className="h-6 w-6 text-[#1A1A1A]" />
  </button>
  <h1 className="font-[family-name:var(--font-fraunces)] text-xl font-bold text-
[#1A1A1A]">Send penger</h1>
  <span className="text-sm text-[#6B7280]">1/4</span>
</div>
```

# Search Input

```
<div className="relative">
  <Search className="absolute left-4 top-1/2 h-5 w-5 -translate-y-1/2 text-[#9CA3AF]" />
  <input
    type="text"
    placeholder="Søk mottakere..."
    className="h-14 w-full rounded-2xl border border-[#E5E7EB] bg-white pl-12 pr-4 text-
[#1A1A1A] placeholder:text-[#9CA3AF] focus:border-[#0B6E35] focus:outline-none focus:ring-2
focus:ring-[#0B6E35]/20"
    value={searchQuery}
    onChange={(e) => setSearchQuery(e.target.value)}
  />
</div>
```

# Empty State

```
<div className="py-12 text-center">
  <p className="text-sm text-[#6B7280]">Ingen mottakere funnet</p>
</div>
```

# Add Recipient Button

```
<button
  onClick={() => router.push('/send/add-recipient')}
  className="flex h-14 w-full items-center justify-center gap-2 rounded-2xl border border-
```

```

[#E5E7EB] bg-white text-sm font-medium text-[#1A1A1A] transition-colors hover:bg-[#F9FAFB]"
>
  <Plus className="h-5 w-5" />
  Ny mottaker
</button>

```

## Recipient List (when populated)

```

<div className="space-y-3">
  {recipients.map((recipient) => (
    <button
      key={recipient.id}
      onClick={() => handleSelectRecipient(recipient)}
      className="flex w-full items-center justify-between rounded-2xl bg-white p-4 text-left
transition-colors hover:bg-[#F9FAFB]"
    >
      <div className="flex items-center gap-3">
        <div className="flex h-10 w-10 items-center justify-center rounded-full bg-
[#0B6E35]/10">
          <User className="h-5 w-5 text-[#0B6E35]" />
        </div>
        <div>
          <p className="text-sm font-semibold text-[#1A1A1A]">{recipient.name}</p>
          <p className="text-xs text-[#6B7280]">{recipient.country} •
{recipient.accountNumber}</p>
        </div>
      </div>
      <ChevronRight className="h-5 w-5 text-[#9CA3AF]" />
    </button>
  )))
</div>

```

## Data Displayed

Data	Source	API
Saved recipients	User's recipient list	GET <code>/api/recipients</code>
Search results	Filtered recipient list	Client-side filtering

Data	Source	API
Step indicator	Flow state	Static (1/4)

## User Interactions

Element	Action	Result
Back arrow	Click	Navigate back to previous page (dashboard)
Search input	Type	Filter recipient list in real-time
Add recipient button	Click	Navigate to <code>/send/add-recipient</code> (step 2)
Recipient card	Click	Select recipient, navigate to amount input (step 3)
Bottom nav tabs	Click	Navigate to respective page (exits send flow)

## Norwegian Labels

Element	Norwegian Text
Page title	Send penger
Step indicator	1/4
Search placeholder	Søk mottakere...
Empty state	Ingen mottakere funnet
Add recipient button	Ny mottaker

## Design Tokens

Token	Value
Page bg	<code>#EEEEEE</code>
Card bg	<code>#FFFFFF</code>
Input bg	<code>#FFFFFF</code>
Primary	<code>#0B6E35</code>
Primary hover	<code>#095C2C</code>

Token	Value
Text primary	#1A1A1A
Text muted	#6B7280
Text light	#9CA3AF
Border	#E5E7EB
Brand font	font- [family-name:var(--font-fraunces)]
Card radius	rounded-2xl
Button radius	rounded-2xl
Input radius	rounded-2xl
Avatar/Icon circle	rounded-full
Icon circle bg	#0B6E35]/10 (10% opacity green)

# Bottom Navigation

**Yes** — All tabs inactive (gray, outline icons). User is in the send flow but not on a main tab page.

## Flow Context

This is **step 1 of 4** in the send money flow:

1. **Select Recipient** (this page) — choose from saved recipients or add new
2. **Add Recipient** — enter recipient details (name, country, account)
3. **Enter Amount** — specify amount and currency
4. **Review & Confirm** — review details, initiate PISP payment from user's bank account

**Pass-through model reminder:** Drop initiates payment via PISP from user's linked bank account. No money is held by Drop.
