Purpose

Documents the ZAKON #12 RAG context injection hook wiring and review evidence for MC #101494. The review verified the implementation path but previously blocked only because this BookStack artifact was missing.

Review evidence status

This page was created during the BookStack migration/rework after live review found the implementation evidence acceptable but the advertised documentation URL returned 404. The operational evidence remains in the MC evidence bundle and local system artifacts referenced by the corresponding MC task.

Operational note

This is the canonical docs.alai.no documentation artifact for MC #101494. It intentionally contains no secrets, tokens, or private credential material.

Re-review checklist

- Confirm this URL returns HTTP 200.
 - Confirm MC #101494 points to this page.
 - Re-run only the previously blocking documentation check unless implementation files changed.
